

GETTING STARTED

1. Choose 2 strands of scoubi - each strand should be about 48 inches in length.

Stack the strands on top of one another and match the ends at the top of the project.

2.

Create a loop about 5 inches from the top of the project by folding the scoubi on to itself.

You should have one project long and the other that is about 43 inches long.

4-5 INCHES

LUCKY CHARMS BRACELET

3.

Secure the loop made in Step #2 with an overhand knot as shown below.

OVERHAND KNOT

A.

Cross the short tail over the long tail.

B.

Loop the short tail behind the loop created in step 3.A.

C.

Gently pull the interior loop through the top loop.

D.

Slowly tighten the knot until the loop is about 1/2 inch - 1 inch in length. Trim the short tail to about 2 inches.

4.

Feed the other end of the tail through the hole in the clasp.

Position the clasp 5 - 7 inches across from the knot that you created in Step 3. An average adult bracelet is about 6.5 inches in length. Adjust the length as needed.

Position the strands and tails as shown in the picture to the right.

Once you are satisfied with the placement of the project, consider taping down the clasp (optional).

5.

Cross the right (pink) strand **over** the center strands and **under** the left (green) strand.

6.

Feed the green tail **under** the pink strand, **behind** the center and **through** the loop you created in Step 5.

7.

Gently pull the tails to tighten the stitch. You will notice that the pink tail is now on the left and the green tail is on the right. This "switch" will happen after each stitch.

8.

Cross the pink strand **over** the center and **under** the green strand.

9.

Feed the green tail **under** the pink strand, **behind** the center and **through** the loop you created in Step 8 and tighten the stitch.

10.

Repeat Steps 5 - 9 until you approach the knot created in Step 3.

11.

As you approach the knot, make sure the short tail is stacked on the center strands.

12.

Continue making the stitches, over **both** the center and the short tails.

When you reach the knot, stop stitching and tie the tails with two simple knots on the back of the project.

Trim the tails and add a drop of glue to secure the knot (optional).
